🎓 Experienced Tutor | University of Helsinki | PhD in Biochemistry

I earned a PhD in Biochemistry from the University of Helsinki and a BSc in Chemistry from Aalto University. For 15 years, I've specialised in GCSE Chemistry, IGCSE Biology and Chemistry, and IB Chemistry HL and SL, guiding students in Finland and internationally to achieve exceptional results.

Teaches: GCSE Chemistry IGCSE Chemistry IB Chemistry A-Level Chemistry

Curriculum: GCSE IGCSE IB A-Level

Qualifications

University of Helsinki: PhD in Biochemistry (2006–2010)

Aalto University: BSc in Chemistry (2002–2006)

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

I've been a Chemistry tutor for over 15 years, teaching a range of levels from GCSE to postgraduate. My career began during my PhD at the University of Helsinki, where I taught undergraduate courses in Biochemistry and Molecular Chemistry. This hands-on experience shaped my expertise in guiding students through challenging topics.

Since then, I've worked with students across multiple curriculums, including GCSE, IGCSE, and IB. My experience includes helping students prepare for critical exams, completing coursework, and mastering advanced subjects such as structural biology and organic synthesis. My teaching extends to home-schooled learners and those enrolled in competitive international programs.

I've also collaborated with academic institutions to design and implement science programs tailored to diverse student needs. My approach has always been to ensure my students feel confident tackling complex concepts, whether in a classroom setting or during one-on-one sessions, leading to their long-term academic success.
